### INTRODUCTION

Tamburi Investment Partners S.p.A. (hereafter “**TIP**”, the “**Company**” or the “**Issuer**”) is an independent investment merchant bank focused on Italian medium-sized companies which undertake activities of:

1. minority investments, as shareholder in companies (listed and non-listed) capable of expressing “excellence” in their relative fields of expertise; operations individually below Euro 40/50 million are generally undertaken directly by TIP while those above this amount are based on club deals;

## **4. BOARD OF DIRECTORS**

### **4.1 APPOINTMENTS AND REPLACEMENT**

The Company, pursuant to paragraph 2, Section VI-*bis*, Chapter V, Section V, Book V of the Civil Code, is governed by a Board of Directors composed of between a minimum of 9 and maximum of 13 members, in compliance with the regulations relating to gender balance required by applicable statutory and regulatory provisions and by the By-Laws. The Board of Directors consists of executive and non-executive members, including shareholders, of which 2 (two) must be independent directors as per Article 148, paragraph 3, of the Consolidated Finance Act.

The appointment and replacement of the directors are governed by the provisions of law and applicable regulations and Article 17 and 18 of the By-Laws. The most significant provisions of the above-mentioned Article 17 and 18 of the By-Laws are illustrated below.

The appointment of the Board of Directors will take place according to the presentation of slates by shareholders in which the candidates are listed through progressive numbering.

Each slate must contain a number of candidates not lower than 2 (two) and not above the maximum number of members to be elected plus one. At least one candidate of each slate must be independent pursuant to Article 148 paragraph 3 of Legislative Decree No. 58 of February 24, 1998 (with subsequent modifications) and relative provisions. Each slate must specifically indicate the candidates considered independent in accordance with the above provisions. In fact, pursuant to Article 147-*ter*, paragraph 4 of the CFA, when the Board of Directors is composed of more than 7 (seven) members (as in the case of the Board of Directors of TIP), at least 2 (two) must be independent as established for statutory auditors by Article 148, paragraph 3 of the CFA. In addition, as TIP is listed on the STAR segment of the Italian Stock Exchange, pursuant to Article 1A.2.10.6 of the Stock Exchange Regulations the number of independent directors must be at least 3 (three), as the Board of Directors of the Company is composed of between a minimum of 9 (nine) and a maximum of 13 (thirteen) members.

For the combined provisions of Articles 17 and Article 33 of the By-Laws, from the call date of the Shareholders' Meeting called for the full renewal of the Board of Directors elected by the Shareholders' Meeting of April 30, 2010, the slates which contain a number of candidates equal or above 3 (three) must be composed of candidates belonging to both genders, in order that the under-represented gender, for the first three-year mandate subsequent to the full renewal of the Board of Directors, is at least one-fifth (rounded up) of the candidates and, for the subsequent mandates, at least one-third (rounded up) of the candidates.

Slates may be presented by parties which, either solely or jointly, have a shareholding representing voting rights in the ordinary Shareholders' Meeting established by applicable

---

statutory regulations and/or current provisions. The shareholding necessary for the purposes of filing a slate is indicated in the Shareholders' Meeting notice called to appoint the members of the Board of Directors.

Each shareholder (as well as (i) shareholders belonging to the same group, and therefore considered as the controlling party, also non-corporate, pursuant to Article 2359 of the Civil Code and any subsidiaries, or under common control, of the same party, or (ii) shareholders belonging to a shareholder agreement pursuant to Article 122 of Legislative Decree No. 58 of February 24, 1998, or (iii) shareholders that are otherwise related in relation to significant relationships pursuant to current statutory and/or regulatory provisions) may present or jointly present with other shareholders, directly, or through nominees, or trust companies, only one slate of candidates, with the risk of the slate being declared ineligible.

Each candidate may be presented on only one slate, at the risk of being declared ineligible. The slates presented must be filed, including through correspondence, at the registered office of the Company at least twenty five days before the date called for the Shareholders' Meeting to deliberate on the appointment of the members of the Board of Directors. Together with each slate, within the terms indicated above, the following documents must be filed:

- a) the list of shareholders presenting the slate, with indication of their name, company, registered office, the company registration office number or equivalent and the total share capital percentage held;
- b) the curriculum vitae of the candidates, containing extensive information on their personal and professional characteristics;
- c) the declaration of the shareholders other than those who hold, including jointly, a controlling or relative majority shareholding, the absence of connecting relationships with these latter;
- d) the declarations with which each candidate accepts their candidature and declares, under their own responsibility, the inexistence of any reasons for incompatibility or ineligibility, as well as attesting to their good and professional standing required by current regulations for the office of director of the Company and, if existing, their independence as established by applicable regulations;
- e) the ownership of the minimum holding necessary is established considering the shares which have been registered in favour of the shareholder on the day on which the slates are filed with the Company.

The relative ownership certificate may be sent after filing of the slate, although by the deadline for the publication of slates by the Company.

The slates must be made available to the public, within the terms prescribed by law, at the registered office of the company and the other means required by applicable statutory and regulatory provisions.

Each shareholder (as well as (i) shareholders belonging to the same group, and therefore considered as the controlling party, also non-corporate, pursuant to Article 2359 of the Civil Code and any subsidiaries, or under common control, of the same party, or (ii) shareholders belonging to a shareholder agreement pursuant to Article 122 of Legislative Decree No. 58 of February 24, 1998 and subsequent modifications, or (iii) shareholders that are otherwise related in relation to significant relationships pursuant to current

---

statutory and/or regulatory provisions) has the right to vote only one slate.

The election of the members of the Board of Directors is as follows: a) Where no slate is presented, the Shareholders' Meeting votes by majority in accordance with the provisions of law b) Where only one slate has been presented all the members of the Board of Directors are elected from this slate c) Where however two or more slates have been presented: (i) from the slate with the highest number of votes will be elected, in progressive order of the candidates listed on the slate, all the members of the Board of Directors, up to the number of directors to be elected less one; (ii) from the slate with the second highest number of votes and which is not in any way related, even indirectly, with the shareholders that presented or voted the list with the highest number of votes, will be elected, in progressive order in which the candidates were indicated in the slate, the remaining director to be elected. From the same slate will also be elected the directors which – for whatever reason – could not be elected from the slate as per letter (i) above, up to the number of directors to be elected d) in the case of parity of votes (i.e. when two slates have both obtained the same number of votes, or the second number of votes) a new ballot will take place by the Shareholders' Meeting, with voting by slates, to elect the entire Board of Directors. e) In the case in which at the end of the voting there was not elected a sufficient number of independent directors in accordance with current regulations, the candidate elected as last in progressive order in the slate which obtained the highest number of votes, who was not independent will be replaced by the first candidate not elected, from the same list, with the required requisites for independence, or where not possible, from the first candidate not elected taken from the second list by number of votes obtained. This procedure will be repeated until the appointment of the number of independent Directors to be elected or until the depletion of the slates. Where after adopting the above-mentioned criteria it is not possible to complete the election of all the Directors, the election of the remaining Directors will be made by the Shareholders' Meeting, on the proposal of the shareholders present and with approval adopted by simple majority. f) Where the slate that obtained the second highest number of votes does not achieve a percentage of votes at least equal to half of that required by the presentation of the slates, all the directors to be elected will be taken from the list that obtained the highest number of votes by the shareholders, based on the progressive number of the candidates listed in the slate. g) pursuant to paragraph 17.2.3 of the By-Laws, where the slate that obtained the second highest number of votes received the vote of one or more parties considered related to the slate that obtained the highest number of votes, these votes will not be counted. Consequently, the remaining director elected is the first candidate in progressive order of the slate with the second highest number of votes without considering the votes of related parties, while where without considering these votes the minimum quorum is not obtained as per letter f) above, the directors are taken from the list that obtained the highest number of votes, based on the progressive order in which the candidates were listed.

Where the election of candidates through slates under the above-stated procedure does not ensure a composition of the Board of Directors in compliance with the applicable gender equality regulation, the last candidate of the over-represented gender from the slate which has gained the highest number of votes will be replaced by the first candidate of the under-represented gender not elected on the same slate. This replacement

---

procedure proceeds until the Board of Directors is comprised of at least one third of the under-represented gender (rounded up). Where this procedure does not ensure an outcome, the Shareholders' Meeting will elect in accordance with the majority by law, on condition of the presentation of candidates of the under-represented gender.

Where for whatever reason the appointment of one or more directors may not be undertaken in accordance with that outlined above, the provisions of law are applied in relation to the appointment of the Board of Directors, without compliance of the above mentioned voting by slates, subject to acceptance by the candidates and declaration, under their own responsibility, of the inexistence of causes for ineligibility and incompatibility, as well as the requisites required by applicable regulations, in compliance with the regulations on gender equality.

The Directors are appointed for a period of three years which expires on the date of the shareholders' meeting called for the approval of the financial statements relating to the final year in office. Directors shall be eligible for re-election.

The independent directors must immediately communicate to the Board of Directors when they may no longer be considered independent by law. The loss of such qualification results in resignation from office, when the minimum number of independent directors is no longer in compliance with law. In such an event the provisions of Article 18 of the By-Laws are applied.

Where one or more Directors resigns, and provided the majority of the Board has been elected by the Shareholders' Meeting, the Board of Directors replaces the Director in accordance with the provisions of law, in application of the gender equality regulatory provisions and the By-Laws. Where the resigning director was from the slate with the second highest number of votes, the replacement will be made appointing the first candidate eligible and available to accept the appointment from the same slate belonging to the resigning director, or, where this is not possible, appointing the first candidate eligible and available to accept the appointment, in progressive order, from the candidates of the other slates that obtained the minimum quorum pursuant to Article 17.2.7, letter f) of the By-Laws, based on the number of votes each candidate obtained. The replacement Director's mandate terminates with the mandate of the Directors in office on his entry to the Board.

Where the resigning director is an independent director, he must be co-opted by another independent director. The replacement will be made appointing the first candidate eligible and available to accept the appointment from the same slate belonging to the resigning director, or, where this is not possible, appointing the first candidate eligible and available to accept the appointment, in progressive order, from the candidates of the other slates that obtained the minimum quorum pursuant to Article 17.2.7, letter f) of the By-Laws, based on the number of votes each candidate obtained. The replacement Director's mandate terminates with the mandate of the Directors in office on his entry to the Board. In the event of the resignation of a member of the under-represented gender the replacement will take place appointing a candidate from the same gender through the candidates not elected from the same slate of the resigning director. The replacement Director's mandate terminates with the mandate of the Directors in office on his entry to the Board.

Where it is not possible to proceed as outlined above, either through lack of candidates

on the slates or unavailability of the candidates, the Board of Directors proceeds through co-optation, in accordance with Article 2386 of the Civil Code, of a director chosen in accordance with the criteria established by law as well as in compliance with the gender equality regulations and By-Laws. The director thus co-opted will remain in office until the following Shareholders' Meeting which will proceed with his confirmation or replacement in accordance with the procedures of ordinary majority voting, in place of the above-mentioned voting by slates.

In the event that the majority of the Directors in office become vacant, the entire Board shall be deemed to have resigned and must promptly call a Shareholders' Meeting to elect a new Board. In the period preceding the appointment of the new Board, the Directors may only undertake ordinary acts of administration.

### Succession plans

The Board of Directors has not evaluated or adopted a plan for the succession of executive directors not considering this necessary.

### Maximum number of offices held in other companies

The Board of Directors adopted the following rules in relation to the maximum number of Directorships permitted by the Directors in other companies:

	Listed companies			Finance, banking and insurance companies			Large size companies <sup>(1)</sup>		
	total offices of director	of which executive director	Statutory Auditor	Total offices of director	of which executive director		total offices of director	of which executive director	Statutory Auditor

In the calculation of the total number of companies in which the Directors hold offices of director or statutory auditor no account is taken of the companies in which the Company holds an investment. The offices held by Directors in companies which belong to the same

<sup>(1)</sup> Companies with a workforce not below two hundred for at least one year.

group, other than those belonging to the Company, are conventionally considered as one office.

The composition of the Board of Directors is in compliance with the general criteria stated above.

### **Induction Programme**

The Company has not implemented initiatives for the induction of directors also taking into account the fact that the directors in office, also in virtue of the number of mandates held, have an adequate knowledge of the sectors of activity in which the Issuer operates, of the business operations and their performance, as well as the regulatory framework.

## **4.3. ROLE OF THE BOARD OF DIRECTORS**

In 2015, the Board of Directors met 7 times, with an average meeting duration between one hour and one hour and a half, depending on the issues on the Agenda.

For the year 2016, at the date of the present Report, 4 Board meetings have been planned.

The directors received the documentation relating to each meeting 4-5 days before the meeting, in order to have the necessary time to review the documentation. In any event, the Chairman of the Board of Directors ensures that there is adequate information provided during the board meetings where, in specific and exceptional cases, it is not possible to provide the necessary pre-board information.

During the year no external parties to the Board (with the exception of the secretary of the Board) took part in meetings.

The Shareholders' Meeting did not authorise any general or specific competitor agreements as per article 2390 of the civil code.

### **POWERS OF THE BOARD OF DIRECTORS AND MEETING REGULATIONS**

The resolutions concerning the acquisition and/or the disposal of investments in other companies, businesses and/or business units for individual amounts above Euro 50,000,000 are exclusively reserved to the Board of Directors.

Except for the above-mentioned resolutions, in the case of parity of votes, the motion will be approved with the favourable vote of the Chairman.

Pursuant to Article 22 of the By-Laws, the Board of Directors shall have the widest powers of ordinary and extraordinary administration of the company and may carry out any and all acts it deems appropriate in attaining the corporate objects, with the sole exclusion of those attributed by law to the Shareholders' Meeting.

---

In addition to the matters indicated previously and subject to Articles 2420-*ter* and 2443 of the Civil Code, the following resolutions are the exclusive responsibility of the Board of Directors, to be taken in accordance with Article 2436 of the Civil Code:

- so-called simplified mergers or spin-offs in accordance with Articles 2505, 2505-*bis* and 2506-*ter*, last paragraph of the Civil Code;

The annual self-assessment document on the functioning of the Board of Directors pursuant to the Self-Governance Code was prepared in accordance with the "Regulations on the functioning of the Board of Directors of Tamburi Investment Partners S.p.A." approved by the Company.

The Board evaluates the adequacy of the organisational, administration and general accounting system of the Issuer and of its subsidiaries with strategic importance, with particular reference to the internal control and risk management system and management of conflicts of interests. The subsidiaries of the Issuer with strategic importance are both the subsidiaries - TXR S.r.l. and Clubsette S.r.l. The Board at least quarterly evaluates the general operational performance, taking into account, in particular, the information received from executive boards, as well as periodically, comparing the results with the budgets.

Examination and prior approval of the transactions of the Issuer and its subsidiaries are reserved for the Board, when these transactions have a significant strategic, economic, equity or financial impact on the Company. The Board of Directors did not draw up the general criteria to identify ex-ante the operations of the Issuer and of the subsidiaries with greatest strategic, economic, equity or financial significance for the Issuer, considering more appropriate to assess each evaluation on a case by case basis.

The Board of Directors meeting of March 14, 2016 assessed the adequacy of the Board of Directors and its Committees, with the following considerations:

- the number of members of the Board of Directors is adequate in order to ensure, for the purposes of the decisions to be made on investments in medium-sized companies, professional figures with adequate skills in the various sectors;
- the composition of the Board of Directors is adequate based on the experience and skill-sets of the individual directors in the various fields of activity; taking into account the presence, of a total of 9 directors, of 6 non-executive directors, of which 4 non-executive independent directors, which also guarantees an appropriate composition of the Committees within the Board;
- the number of members of the Committees, as well as the composition of the Committees, is adequate based on their respective capabilities, taking into account the experience matured by the members of the Committees of an accounting and financial nature, as well as the independence of the members.

This assessment was undertaken without the assistance of external consultants.

---

In the undertaking of their functions the Remuneration Committee may access information and departments necessary for the undertaking of their duties, utilising both employees of the Company and external consultants on remuneration policies (and with prior verification that these are not in conflict of interest with an independent opinion), in this latter case within the terms established by the Board of Directors.

No financial resources have been earmarked for the Remuneration Committee as the latter avails itself, to carry out its role, of the Issuer's corporate resources and structures.

### **Remuneration of Directors**

The Chairman of the Control and Risks and Related Parties Committee was chosen by the Committee.

---

The composition of the Committee is in accordance with Article 7 of the Self-Governance Code. The first meeting of the new Control and Risks and Related Parties Committee was held on June 11, 2013.

The Board of Directors assessed that all the members of Control and Risks and Related Parties Committee have adequate accounting and financial experience.

The Board of Directors of March 11, 2015, after the favourable opinion of the Control and Risks and Related Parties Committee, approved some amendments to the afore-mentioned Control and Risks and Related Parties Committee Regulation, of the most recent version of November 14, 2013, in order to further improve the content and further clarify some specific aspects in view of evaluations made following their application.

The Board of Directors of March 14, 2016, after the favourable opinion of the Control and Risks and Related Parties Committee, approved some amendments to the afore-mentioned Control and Risks and Related Parties Committee Regulation, of the most recent version of March 11, 2015, in order to incorporate the amendments to the Self-Governance Code in July 2015.

The Control and Risks and Related Parties Committee Regulations provide that the Committee is comprised of three non-executive directors of which two are independent. The Regulation governs the composition, functioning and duties of the Committee, applicable and integration to those as per Articles 4 and 7 of the Self-Governance Code compatible with the new provisions of Legislative Decree No. 39 of January 27, 2010.

The Control and Risks and Related Parties Committee has the functions of consultation and proposals to the Board of Directors. In particular the regulation of the Committee provides for proposals to the Board of Directors:

- a) on the definition of the guidelines of the internal control and risk management system, so that the principal risks of the Company are correctly identified, as well as adequately measured, managed and monitored;
- b) on the determination of the level of compatibility of the risks as per letter a) above with the management of the operations in line with the strategic objectives identified;
- c) on the evaluation, at least on an annual basis, of the adequacy of the internal control and risk management system with the particular characteristics of the Company and the risk profile assumed as well as its efficacy;
- d) on the approval, at least on an annual basis, of the work plan drawn up by the Internal Audit Department manager, after consultation with the Board of Statutory Auditors and the Director in charge of the internal control and risk management system;
- e) on the description, in the corporate governance report, of the main characteristics of the internal control and risk management system, expressing its assessment on the overall adequacy;
- f) on the evaluation, after consultation with the Board of Statutory Auditors, of the results of the independent audit firm's letter of recommendations and of the report on fundamental questions established during the audit;
- g) on the proposal relating to the appointment, revocation and remuneration of the Internal Audit Manager and on the adequacy of the resources assigned to this latter for these activities.

The Control and Risks and Related Parties Committee, in assisting the Board of Directors, is also assigned the following duties:

- 
- evaluate, together with the Executive responsible for the preparation of corporate accounting documents following consultation with the auditors and the Board of Statutory Auditors, the correct application of the accounting principles and their uniformity in the preparation of the financial reports;
  - express opinions on specific aspects concerning the identification of the principal corporate risks;
  - examine the periodic reports, concerning the valuation of the internal control and risk management system, and those of particular size, prepared by the Internal Audit Department;
  - monitor the independence, adequacy, efficacy and efficiency of the Internal Audit Department;
  - carry out duties given to it by the Board of Directors;
  - support, with appropriate investigative activities, the evaluations and decisions of the Board of Directors concerning the management of risks from events which the Board of Directors becomes aware of.

The Control and Risks and Related Parties Committee may request the Internal Audit Manager to carry out verifications on specific operational areas, simultaneously communicating such to the Chairman of the Board of Statutory Auditors, to the Chairman of the Board of Directors and to the Director in charge of the internal control and risk management system, except where these verifications specifically refer to the activities of these parties.

The Control and Risks and Related Parties Committee may access all information and departments necessary for the undertaking of their duties, as well as utilising external consultants, within the budget approved by the Board of Directors. The Control and Risks and Related Parties Committee, at least every six months, at the time of the approval of the annual and half-yearly accounts, reports to the Board on the work carried out and the adequacy of the internal control and risk management system.

The Control and Risks and Related Parties Committee also includes the functions and duties of the Committee for Transactions with Related Parties in relation to the Procedures for Transactions with Related Parties adopted by the Issuer, as latterly modified on March 14, 2016.

In relation to the Procedure for Transactions with Related Parties, the Control and Risks and Related Parties Committee has the duty to present opinions in the interest of the Company on the undertaking of Transactions with Related Parties, whether they are Significant or Minor Operations, expressing an opinion in relation to their interest for the company and substantial correctness in relation to their conditions, with the receipt of timely and adequate documentation.

Subject to the relevant regulatory legislative provisions, in order to permit the Board of Directors to adopt the Procedures for the management of the Transactions with Related Parties, *inter alia*, the Control and Risks and Related Parties Committee:

- a. analyses the content of the procedure prepared by the Company, assessing conformity with regulations and adequacy to the overall operational activities. In particular, it evaluates:

- 
1. the criteria and procedures for the identification of the Related Parties;
  2. the criteria and procedures for the identification of Significant Operations;
  3. the compliance with regulations in the cases of exemption from the application of the specific procedures. Specifically:
    - (i) the criteria and procedures for the identification of Minor Operations;
    - (ii) the criteria and procedures for the identification of Ordinary Operations;
    - (iii) the underlying logic for the adoption of standard resolutions;
    - (iv) in the event of urgency as per the Procedures for the management of Related Party Transactions prepared by the Company;

- b. express and transmit to the Board of Directors an opinion on the evaluations at point a) above;
  - c. proposes to the Board of Directors modifications and integrations to the Procedures for Transactions with Related Parties.

In virtue of the exemption as per Article 10 of the Consob Related Parties Regulation, as long as TIP is considered a “small-sized company” pursuant to the Consob Related Parties Regulation, TIP applies the Procedure for Minor Operations also to Significant Operations.

However, with reference to each Minor Operation and each Significant Operation (given the exemption of TIP as illustrated above) the Committee:

- a) receives timely and before the relative approval by the relevant boards, adequate and complete information on this operation. Where the transaction is subject to an information document pursuant to Article 5 of Consob Related Parties Regulation, the Committee receives assimilated information to that as per Attachment 4 of Consob Related Parties Regulation;
- b) assesses the interest of TIP in undertaking the transaction subject to the evaluation of the Committee;
- c) assesses the value and the substantial correctness of the conditions of the transaction proposed. When the transaction conditions are equivalent to market or standard conditions, the documentation must contain objective corroborated evidence;
- d) prepares a written opinion which indicates the reasoning of the evaluations undertaken by the Committee;
- e) transmits to the Board of Directors and to the Board of Statutory Auditors their opinion within a reasonable time period from the date of receipt of the information at sub a) and, in any case, within the time period for the approval of the transaction.

During the year, the activities undertaken by the Control and Risks and Related Parties Committee were principally focused on the assessment, together with the Executive

---

responsible for the preparation of the corporate accounting documents and having consulted with the audit firm and the Board of Statutory Auditors, of the correct utilisation of the accounting principles and their uniformity in the preparation of the periodic financial reports and on the review of the periodic reports on the assessment of the internal control and risk management system, and the reports prepared by the Internal Audit Manager. The Control and Risk and Related Parties Committee reviewed the content of the verifications undertaken by the Internal Audit Manager, the results arising, the proposals presented and the evaluations in relation to solutions for the Issuer.

The Control and Risks and Related Parties Committee also provided support on a continual basis to the Board of Directors on the assessment of the adequacy of the internal control and risk management system with the particular characteristics of the Company and the risk profile assumed, as well as on the efficiency of the system. The Control and Risk and Related Parties Committee selected areas and processes of particular sensitivity and importance, given the sector in which the Issuer operates, in order to undertake specific detailed reviews.

In addition, during the year the Committee, in its role as Committee for Transactions with Related Parties, reviewed and resolved upon some Transactions with Related Parties undertaken by the Issuer.

The number of meetings held by the Committee and the percentage participation of each member to these meetings is illustrated in Table 1 of the Attachment to the present Report. The average duration of the committee meetings was between one hour and one and a half hours depending upon the matters on the Agenda. The Chairman of the Board of the Statutory Auditors and other Statutory Auditors attended these meetings.

Minutes were kept for the meetings of the Committee. The Organisational Regulation of the Control and Risks and Related Parties Committee, latterly amended on March 14, 2016, establishes that the Chairman of the Committee provides disclosure upon all Committee meetings to the next appropriate Board of Directors meeting.

In 2016, 4 meetings are scheduled, of which one has already been held.

No financial resources have been earmarked for the Control and Risks and Related Parties Committee as the latter avails itself, to carry out its role, of the Issuer's corporate resources and structures.

Legislative Decree No. 231 of June 8, 2001 (also hereafter the “Decree”) introduced into Italian Legislation a form of responsibility, known as “administrative offense”, for companies, associations and entities in general, following the committal, in their interest or advantage, by a party that holds a pivotal or subordinate role within their organisation, of an unlawful act of the offenses included therein.

Corporate responsibility may however be excluded, where the entity demonstrates before the undertaking of any unlawful act to have adopted and efficiently implemented an organisational, management and control model (hereafter also the “Model”) capable of preventing the committal of the offenses contained in the Decree.

For these purposes the Company adopted a Model in 2005.

With the purposes of ensuring the efficient implementation of the Model, the Company also set up a Supervisory Board (also “SB”), which was assigned the responsibilities as per Article 9, paragraph 1, point b) of the Decree.

- crimes in relation to violation of author's rights, introduced by Article 15, paragraph 7, letter c), of Law No. 99 of July 23, 2009 which was included in Legislative Decree 231/2001 Article 25-*novies*;
- induction not to provide declarations or to provide false declarations to the authorities, introduced by Article 4 of Law No. 116 of August 3, 2009, as replaced by Article 2, paragraph 1, of Legislative Decree No. 121 of July 7, 2011, included in Legislative Decree No. 231/2001 Article 25-*decies*;
- environmental offenses, introduced by Article 4, paragraph 2, Law No. 116 of August 3, 2009, as replaced by Article 2, paragraph 1, of Legislative Decree No. 121 of July 7, 2011, which was included in Legislative Decree No. 231/2001 Article 25-*undecies*;

## **13. APPOINTMENT OF STATUTORY AUDITORS**

In accordance with Article 26 of the By-Laws, the Board of Statutory Auditors comprises three standing auditors (of which at least one belonging to the under-represented gender) and two alternate auditors (one of each gender), appointed by the Shareholders' Meeting and all complying with the eligibility, good standing and professionalism requirements established according to applicable legal and regulatory provisions. In particular pursuant to the provisions of Ministerial Decree No. 162 of March 30, 2000, Article 1, paragraph 10, the matters closely relating to the activities of the Company must concern, among other matters, administrative, political economics, financial law. Persons may not be nominated statutory auditor and, if elected, must resign from office, where they are in positions of incompatibility in accordance with law or regulations, as well as persons that exceed the limit on the accumulation of offices established by applicable regulations.

The Board of Statutory Auditors verifies compliance with law and the By-Laws and the principles of correct administration and in particular on the adequacy of the administration and accounting organisation adopted by the Company and on its correct functioning. The Board of Statutory Auditors meets at least every ninety days on the initiative of one of the members.

The appointment of the Board of Statutory Auditors takes place according to the presentation of slates in which the candidates are listed through progressive numbering. The slate is composed of two sections: one for the candidates for the office of Standing Auditor and the other for candidates for the office of Alternate Auditor. The slates must contain at least one candidate for the position of Standing Auditor and one candidate for the position of Alternate Auditor; the number of candidates on each slate may not exceed the maximum numbers of members to be elected.

For the combined provisions of Articles 26 and Article 33 of the By-Laws, from the call date of the Shareholders' Meeting called for the full renewal of the Board of Directors elected by the Shareholders' Meeting of April 30, 2012, the slates which contain a number of candidates equal or above 3 (three) must be composed of candidates belonging to both genders, in order that the under-represented gender, for the first three-year mandate subsequent to the full renewal of the Board of Statutory Auditors, is at least one-fifth

---

(rounded up) of the candidates and, for the subsequent mandates, at least one-third (rounded up) of the candidates.

Slates may be presented by parties which, either solely or jointly, have a shareholding representing voting rights established by applicable statutory regulations and/or current provisions for the presentation of candidates for the appointment of the Board of Directors. The shareholding necessary for the purposes of filing a slate is indicated in the Shareholders' Meeting notice called to appoint the members of the Board of Statutory Auditors.

Each shareholder (as well as (i) shareholders belonging to the same group, and therefore considered as the controlling party, also non-corporate, pursuant to Article 2359 of the Civil Code and any subsidiaries, or under common control, of the same party, or (ii) shareholders belonging to a shareholder agreement pursuant to Article 122 of Legislative Decree No. 58 of February 24, 1998, or (iii) shareholders that are otherwise related in relation to significant relationships pursuant to current statutory and/or regulatory provisions) may present or jointly present with other shareholders, directly, or through nominees, or trust companies, only one slate of candidates, with the risk of the slate being declared ineligible.

Each candidate can be presented only on one slate at the risk of being declared ineligible.

The slates presented must be filed, including through correspondence, at the registered office of the Company at least twenty five days before the date called for the Shareholders' Meeting to deliberate on the appointment of the members of the Board of Statutory Auditors. Together with each slate, within the terms indicated above, the following documents must be filed:

- a) the list of shareholders presenting the slate, with indication of their name, company, registered office, the company registration office number or equivalent and the total share capital percentage held;
- b) the curriculum vitae of the candidates, containing extensive information on their personal and professional characteristics;
- c) the declaration of the shareholders other than those who hold, including jointly, a controlling or relative majority shareholding, the absence of connecting relationships with these latter;
- d) the declarations with which each candidate accepts their candidature, indicates the offices held in other companies and declares, under their own responsibility, the inexistence of any reasons for incompatibility or ineligibility, as well as attesting to their good and professional standing required by current regulations for the office of statutory auditor of the Company.

The ownership of the minimum holding necessary is established considering the shares which have been registered in favour of the shareholder on the day on which the slates are filed with the Company. The relative ownership certificate may be sent after filing of the slate, although by the deadline for the publication of slates by the Company.

The slates must be made available to the public, within the terms prescribed by law, at the registered office of the company and the other means required by applicable statutory and regulatory provisions.

In the case where only one slate is filed at the expiry date of the term for presentation of the slates, or slates are only presented by related shareholders pursuant to Article 26.3.2 of

---

the By-Laws, slates can be presented up to the fifth day subsequent to such date. Communication will be established in the form established by the current provisions, and the minimum percentage for the presentation of the slates established by Article 26.3.1 of the By-Laws will be reduced by half.

The procedure for electing Statutory Auditors are as follows:

a) from the slate which obtained the highest number of votes in the Shareholders' Meeting, based on the progressive order on the slate, 2 standing members and 1 alternate member are elected;

b) from the slate which obtained the second highest number of votes in the Shareholders' Meeting, based on the progressive order on the slate, the remaining standing member and the other alternate member are elected.

The Chairman of the Board of Statutory Auditors shall be the first candidate on the slate indicated at letter b) above;

c) in the case of parity of votes (i.e. where two slates have both obtained the highest number of votes, or the second highest number of votes), where the parity relates to the slates that obtained the second highest number of votes, the candidate will be elected from the slate that was voted by the highest number of shareholders;

d) the candidates are elected from the slates as indicated in the previous letters a), b), c), except for the provisions in letters e) and f);

e) where only one slate is presented, all the statutory auditors will be elected from this slate. The first candidate in progressive numbering in the standing auditor section will be the Chairman of the Board of Statutory Auditors;

f) where the slate that obtained the second highest number of votes received the vote of one or more parties to be considered related, in accordance with Article 26.3.2, to the slate which obtained the highest number of votes, these votes will not be taken into consideration. Consequently, where excluding these votes another slate would have received the second highest number of votes, the remaining standing auditor and the remaining alternate auditor (if indicated) will be those indicated first in the progressive number in the respective sections of this other slate.

Where the composition of the Board of Statutory Auditors in both the categories of Standing Auditor or Alternative Auditor does not ensure compliance with the gender equality regulations, taking into account their order on the slates in the respective sections, the last elected member of the slate with the highest number of votes belonging to the over-represented gender will be replaced to ensure compliance with this regulation, by the first non-elected candidate on the same slate and on the same section belonging to the under-represented gender.

Where his/her legal requisites no longer exist, the statutory auditor must leave office.

In the case of the replacement of a standing auditor, the alternate auditor, where possible, shall be taken from the same slate and his/her mandate will expire with the other members in office at the moment of his/her election to the Board, and the Chairman of the Board of Statutory Auditors shall be the statutory auditor from the slate which obtained the second highest number of votes.

Where it is not possible to proceed within the terms outlined above, the Board of Statutory Auditors will lapse immediately in its entirety and a Shareholders' Meeting must be called to

---

appoint the Board of Statutory Auditors, in accordance with the slate voting system indicated above.

Where the Shareholders' Meeting must, pursuant to Article 2401, paragraph 10, of the Civil Code, appoint the alternative auditors to integrate the Board of Statutory Auditors, this regulation shall be made through ordinary majority, in replacement of the slate voting system indicated above.

The replacement procedure outlined in the previous paragraphs must in every case ensure compliance with the gender equality regulations in force and the By-Laws.

The statutory auditors are elected for a period of three years and until the date of the Shareholders' Meeting for the approval of the annual accounts for the last year of their appointment and they may be re-elected.

The meetings of the Board of Statutory Auditors may also be held through teleconference and/or video conference, on the condition that: a) the Chairman and the secretary of the meeting are in the same location; b) all of the participants may be identified and they can follow the discussion, receive, transmit and view documents, interact verbally and in real time on all matters. Where all of the above-mentioned conditions are complied with, the meeting shall be deemed to have been held where the Chairman and the secretary are present.

Attachment 1): Principal characteristics of the risk management and internal control system in relation to the financial disclosure process in accordance with Article 123-bis, paragraph 2, letter b), of the Consolidated Finance Act

### 1) **Introduction**

The risk management system should not be considered independently of the internal control system in relation to the financial disclosure process in that both form part of the same system.

The internal control system on corporate reporting was defined in accordance with Legislative Decree No. 58/98 CFA, Article 154-*bis* and 154-*ter*, applicable to TIP, as Issuer with listed shares.

The internal control system has the objective to ensure the reliability, accuracy, correctness and timeliness of the financial reporting and the capacity of the process to prepare the financial statements and half-year financial statements in accordance with international accounting standards (IAS/IFRS).

### 2) **Description of the principal characteristics of the risk management and internal control system in relation to the financial reporting process**

The structure of the controls provides for control instruments which permit TIP to identify, define and monitor the internal control system. These controls also include the Ethical Code and relevant governance.

The structure of the controls at process level of financial reporting provides for:

- specific controls: activities, manual and automatised, in order to prevent, identify and correct errors and irregularities which arise during operating activities. The specific controls were identified as decisive controls for the prevention of false representation in the financial statements in which to concentrate the monitoring activity (typically in the activities of TIP: controls on service revenues and allocation based on the duties in accordance with the individual assignments obtained, valuation of bond securities and investments) and secondary control;
- first level controls: this concerns respectively, controls relating to the operational processes, and oversight controls on the management and risk control process in order to ensure compliance with business objectives (for example controls undertaken by the Executive in Charge);
- independent monitoring, assigned to the external Internal Audit Manager.

In relation to the roles and functions involved it is recalled that this monitoring activity is subject to periodic reporting by the Director in Charge of the internal control and risk management system in order to assess the adequacy of the control system on the financial reporting.

It is recalled that the Chief Executive Officer and the General Manager issue, from the 2007 financial statements, a declaration on the correctness/completion of information and

---

of the maintenance of controls and procedures with reference to both the annual financial report and the half-year financial report; with reference also to the quarterly reports and all communications of a financial nature, the Executive in Charge makes declarations of the conformity with the underlying documentation and accounting entries.

The Director in Charge of the internal control and risk management system communicates the annual assessment of the internal control system to the Board of Directors and to the Board of Statutory Auditors in accordance with the regulatory oversight provisions.

The Director in Charge of the internal control and risk management system and the Executive Responsible which prepared the administrative and accounting procedures for the formation of the financial statements, declare that:

- a) these procedures are adequate and are effectively applied during the period;
- b) the financial statements were prepared in accordance with applicable international accounting standards;
- c) the financial statements correspond to the underlying accounting records and accounting entries;
- d) the financial statements provide a true and correct representation of the balance sheet, financial situation and result for the year of the Issuer;
- e) the Directors' Report presented together with the financial statements includes a reliable analysis on the operational performance.
